

# Company Overview

## OVERVIEW

In today's highly automated world, even the largest companies have difficulty dealing with the complex security issues they face. Knowing any security event, small or large, can have devastating effects on the business, every organization has the need for occasional assistance to help manage these risks. And with the increased threat from organized crime, the risks are higher now than ever before. Clear Skies Security (Clear Skies) is a security consulting company that specializes in supporting our customers by helping them find potential security flaws in computer networks and applications before they can be used for malicious purposes.

### Services Overview

- Penetration Testing
- Application Assessment
- Internal Security Assessment
- Wireless Testing
- VOIP Assessments
- Policy Gap Analysis
- Secure Code Training

State-of-the-art technology requires state-of-the-art protection. Clear Skies' assessment methodology is built on years of proven experience, which leverages industry best practices and incorporates extensive technical testing for the highest level of vulnerability identification. The end result will provide specialized analysis of the findings to give a comprehensive view of the business risks.

### Benefits Overview

- Comprehensive testing by elite security professionals
- Rapid identification of issues
- Extensive risk analysis
- Detailed recommendations for corrective actions
- Demonstration of business risk
- Raising employee security awareness
- Meet regulatory compliance guidelines
- Helps protect your brand reputation

**Clear Skies Security**  
**Your Trusted Security Advisor!**

## THE CLEAR SKIES DIFFERENCE

### Our People

Although most organizations understand the need to protect critical enterprise systems, the reality is that many remain at risk mostly due to the lack of specialized security expertise. The main advantage Clear Skies can offer our customers is our people - true industry leaders in the assessment arena. We start by understanding our customer's business objectives because we know that security is not a one-size-fits-all process. The final result is a comprehensive approach to a risk management solution, which can be understood by both technical and executive staff.

### Our Knowledge

In an effort to further leverage these specialized consulting skills with our customers, all Clear Skies consultants are also required to spend 20% of their time on research, especially around new, interesting, or bleeding edge technologies. Utilizing this individual R&D approach, Clear Skies will be in a prime position to provide assessment offerings on the latest technologies, and can be very nimble in responding to any unique customer environments.

### Your Gain

Clear Skies consultants will act as a valued Trusted Security Advisor that can offer security advice and recommendations as a true outsider – no other product sales will be positioned as a result of our testing. Nothing but honest recommendations that will help secure your business.

## ABOUT CLEAR SKIES

Clear Skies was founded by a team of elite security professionals, each bringing 10+ years of experience in the security industry, all with a specialty in security assessments. Our mission is to be a trusted name in the security industry, known for our technical knowledge, integrity, and business ethics. We do this by focusing on customer service and ensuring quality in everything we do.

### Intelligence. Secured.

In the end, our goal is to ensure Our Intelligence Secures Your Intelligence.
